Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species: the species of figures 1a-1b: the species of figures 2a-2b, the species of figures 3a-3b, the species of figures 4a-4b, the species of figures 5a-5b, the species of figures 6a-6b, the species of figures 7a-7b, the species of figure 8a-8b, the species of figures 9a-9b, the species of figures 10a-10b, the species of figures 11a-11b, the species of figures 12a-12b, the species of figures 13a-13b, the species of figures 14a-14b, the species of figures 15a-15b, the species of figures 16a-16b, the species of figures 17a-17b, the species of figures 18a-18b, the species of figures 19a-19b, the species of figures 20a-20b, the species of figures 21a-21b, the species of figures 22a-22b, the species of figures 23a-23b, the species of figures 24a-24b, the species of figures 25a-25b, the species of figures 26a-26b, the species of figures 27a-27b, the species of figures 28a-28b, the species of figures 29a-29b, the species of figures 30a-30b, the species of figures 31a-31b, the species of figures 32a-32b the species of figures 34a-34b, the species of figures 35a-35b , the species of figures 36a-36b, the species of figures 37a-37b and 42a-42b, the species of figures 38a-38b , the species of figures 39-40, the species of figure 41, the species of figure 43, the species of figure 44, the species of figure 45, the species of figure 46, the species of figures 47a-47b , the species of figures 47a-47e, the species of figures 48a-48c and the species of figures 49a-49b. The species are independent or distinct because each species has patentability distinct features.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 8 and 17 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
